**Abstrak**—Laman sesawang adalah portal maklumat sehenti bagi pengunjung yang ingin mengakses sumber digital perpustakaan universiti awam di Malaysia. Malangnya kedapatan perpustakaan universiti yang kadar kebolegunaan laman sesawangnya masih rendah sehingga menyukarkan pengguna. Kertas kerja ini menyelidiki punca masalah. Analisis ringkas perbandingan kebolegunaan beberapa laman sesawang perpustakaan universiti telah dilakukan, dengan fokus pada laman utama sahaja. Cadangan penambahbaikan turut diutarakan ke arah menjadikan laman sesawang perpustakaan universiti sebagai portal maklumat sehenti pilihan pengguna.
